

Manuscript Writing Workshop

10-14 July 2017

KCCO Conference Room

*organized by the KCMU Co, Department of Epidemiology & Biostatistics
with support from THRiVE*

This manuscript writing workshop is for students just completing their Masters degree dissertations and PhD students at KCMU College. It is a requirement of KCMU College that Masters degree students submit a manuscript based on their dissertation to the DPS office in August 2017.

Workshop objectives:

This writing workshop will lead students through the entire process of manuscript writing, from conception, presentation of methods and results, interpretation of results, choosing a journal, and steps required for submitting to a journal. At the end of the workshop, participants will have a full draft of a manuscript and comments from facilitators and other participants on the content of the manuscript.

****Please inform your supervisors about your intention to write the manuscript and attend the workshop. Please invite them to attend the workshop too!**

Homework prior to workshop:

- Come with a completed research report
- Complete a literature search and bring three printed articles with you including a sample/model paper
- Bring laptop to write with SPSS and Word installed (no tablets!)
- Dataset in SPSS or STATA
- Internet connection
