

QUALITATIVE RESEARCH METHODS WORKSHOP

Introduction

Qualitative research methods are becoming very popular outside the traditional quantitative research methods which have long dominated the research field. To tackle local and international health problems, it is important to understand the context regarding people, their environment, and their behaviour.

This workshop organized by the Institute of Public Health - KCMUCo will equip learners with knowledge and skills to effectively conduct research using qualitative research methods, analyse and interpret qualitative data; and write up qualitative research findings.

Who can apply for this course?

Professionals working in institutions, independent researchers and applicants outside KCMUCo are encouraged.

Facilitators:

Local: Prof. Rachel Manongi MD, MPH, Ph.D., Dr. Florida Muro MD, MPH, Ph.D., Dr. Mary Mosha MSc, Ph.D., and Ms. Rose Mwangi Mphil, MPH

External: Dr. Joseph R. Mwanga MSc., PhD

Mode of delivery

This in-person two weeks workshop will be offered in English combining lectures, discussions, and practical demonstrations.

Following the workshop, participants will be able to:

- Develop qualitative research questions and conceptual framework
- Design qualitative tools both interview and discussion guide
- Carry out data collection for qualitative research
- Analyse, summarize and interpret qualitative data
- Write up qualitative research findings

Workshop dates and time

- Dates: 20th -31st March 2023
- Venue: Kilimanjaro Christian Medical University College, Kilimanjaro Tanzania
- Time: 08:30 am – 3 pm
